FEATURED EQUIPMENT

Cues Mini-Push 20/20 Camera

The CUES Mini-Push 20/20 is an all-inclusive, ready-to-use, portable, color video inspection system. The Mini-Push 20/20 uses proven video technology to view and record pipelines from 2" in diameter and larger and can operate with existing CUES PS2, PS3 and self-upright cameras. The 6.4" color LCD monitor is adjustable with a fold down position for protection during transport and includes a sun shield for optimal viewing in sunlight. This lightweight system includes wheels for easy portability.

Cues Ultra Shorty 21

Ultra Shorty 21 offers the same quality and proven performance as the Ultra Shorty transporter but also provides a reduced length measuring under 21". This transporter can inspect 6" to 36" lines with major offsets and protruding laterals. Adapter blocks are available to optically center the camera in 30" to 36" lines.
